Good Afternoon Recovery Center Students,

We would like to provide you with an update about Recovery Education Classes, Boston University has decided to not resume all IN PERSON learning on campus this semester. Right now, we do not know when we will be able to resume in person learning or when we will be able to hold summer registration or when our summer semester will take place. We keep you posted when we have a better idea.

We know how challenging this has and will continue to be for you all, as this is a meaningful community for you. We want to reassure you that this decision has been made to help stop the spread of the virus.

What we do know is that your Recovery Education Center Instructors will continue to reach out to you by phone, email or text at least once a week to check in to see how you are doing and to keep you connected to our community.

We are organizing a virtual coffee & conversation that will give you a chance to catch up with us and stay connected with your peers. *More details to follow this week*

Please reach out by phone or email if you have any questions or concerns. We miss seeing you all but continue to look forward to connecting with you in other ways.

Be Well,

Dori and Stephanie

Governor Baker issues ‘stay-at-home’ advisory

What does this mean?
Starting tomorrow, March 24th through April 7th everyone is asked to stay home and limit all unnecessary activities. Grocery stores, pharmacies, hospitals, healthcare facilities, gas stations, public transit, restaurants that offer takeout and delivery, police departments, and other essential operations will remain open while the advisory is in effect.

What can you do?
You are still able to leave your house! You can go for a walk around the block or at a park near by however you should practice safe social distancing, 6 feet apart. You can go to the grocery store, pharmacy, hospitals/healthcare facilities and you can take public transportation to those places, if need be. Wash your hands, use hand sanitizer if soap and water are not available, avoid touching your eyes, nose and mouth.
